# Programme Structure

---

## Salient Features of the Curriculum

- The curriculum and assessment are aligned with the United States Medical Licensing Examination (USMLE), which enables graduates to specialise in a relatively shorter duration
- Continuous Personal, Professional, Development and Ethics (PPD&E) throughout the programme
- Co-curricular and extra-curricular activities to ensure students' holistic development

## Phase 1

- Organ / system-based modular approach with problem-based learning
- Vertical and horizontal integration of basic science and clinical disciplines in a spiral manner
- Cadaveric dissection for gross anatomy
- Early clinical exposure during Years 1 and 2
- Clinical and communication skills training
- Research project

## Phase 2

- Discipline and speciality-based clinical postings at hospitals
- Case-based learning, problem-solving sessions, seminars
- Research project
- Elective posting

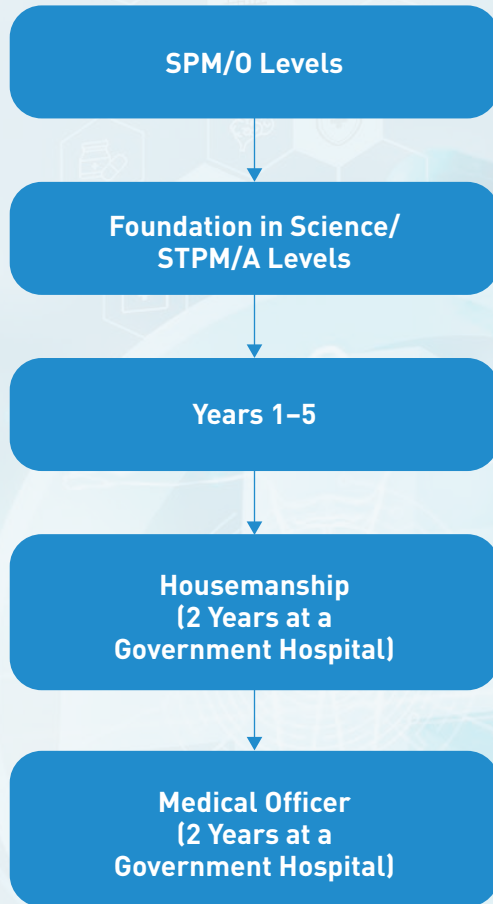

## Recognitions
